**RE: ELIUD NJENGA MUHINDI**

We are glad to inform you that the above-named person has successfully completed his training program at The Jitu Ltd on July 2023.

During the training, he was exposed to software development where he learnt HTML, CSS, JavaScript, React, NodeJS, SQL Server, Redux Toolkit, Redis, Docker and Git. He also learnt teamwork through a team project, project Management and documentation, soft skills consisting of communication skills and time management.

He was enthusiastic about developing scripts and finding solutions during his internship, and he had a self-driven desire to learn new things. He is fast in understanding instructions and adaptable when the original plan needs to be changed. He is an effective communicator both orally and in writing.

His association with us was very fruitful and we wish him all the best in his future endeavors.

Yours faithfully,
